WHO WE ARE

A Nigerian company built for responsible delivery.

I.M.M & Y Engineering Services Limited is a multidisciplinary engineering, construction and contracting company supporting public, private and development-sector clients across Nigeria.

Our integrated approach connects technical planning, quantity surveying, procurement, site execution, supervision and handover. We focus on clear communication, cost awareness, quality control and practical solutions that respond to each client's objectives.

01

Our Vision

To become a trusted Nigerian engineering company recognised for quality, professionalism and sustainable project delivery.

02

Our Mission

To deliver dependable solutions through skilled people, sound planning, transparent service and continuous improvement.

03

Our Values

Integrity, quality, safety, accountability, partnership and respect for every client's objectives.

LEADERSHIP

Mustapha Ibrahim Abba
(MNIQS)

Chairman / Managing Director

We plan carefully, control costs and maintain quality - because every project carries our name.

WHAT WE DO

One accountable partner. Complete project capability.

01

Building Construction

Residential, commercial, institutional and public-sector developments, renovations and facility upgrades.

02

Civil Engineering

Roads, drainage, earthworks, concrete structures, external works and infrastructure delivery.

03

Procurement & Logistics

Specification-led local and international sourcing, supplier coordination and nationwide delivery.

04

WASH & Water Treatment

Water-treatment systems, sanitation facilities, water points, testing and WASH supplies.

05

Renewable Energy

Solar photovoltaic systems, inverters, battery storage and solar water-pumping solutions.

06

Project & Cost Management

Estimates, BOQs, tendering, valuations, cost control, supervision and project reporting.

07

Subcontracting

Building, civil, WASH, plumbing, labour-and-material and specialist work-package delivery.

08

Direct Labour

Skilled artisans, general labour, foremen and coordinated site teams for flexible execution.

HOW WE WORK

Flexible engagement. Disciplined execution.

01

Main Contractor

End-to-end responsibility for planning, coordination, procurement, execution and handover.

02

Subcontract or

Focused delivery of an agreed work package under the main contractor's programme and standards.

03

Direct Labour

Skilled manpower and site coordination while the client controls materials and major decisions.

04

Supply Only

Specification-led sourcing, verification, logistics and delivery of required materials or equipment.

OUR DELIVERY PROCESS

01

OUR STANDARD

Responsible delivery is built into every assignment.

01

Health & Safety

Hazard awareness, responsible planning, site controls and protection of people, property and the environment.

02

Quality Assurance

Clear requirements, inspection points, material verification and controlled workmanship.

03

Cost Discipline

Measurement, estimating, procurement awareness, valuation and change control support informed decisions.

04

Ethical Conduct

Transparent communication, accurate information, confidentiality and accountable business practice.

CORPORATE IDENTITY

I.MM & Y Engineering Services Limited | RC 1663067 | Established 2020 | Nigeria

Supporting corporate, tax, financial, personnel, HSE and project documents are shared through controlled channels for legitimate due-diligence purposes.

OUR ADVANTAGE

Practical capability with one accountable team.

01

Integrated Services

Construction, civil engineering, procurement, WASH, energy and cost management under one coordinated platform.

02

Cost Awareness

Quantity-surveying discipline informs estimating, procurement, valuation and project-control decisions.

03

Flexible Delivery

Main contracting, subcontracting, direct labour, supply-only and consultancy engagement models.

04

Nationwide Reach

Project coordination and sourcing capability that supports clients and communities across Nigeria.

05

Responsive Communication

Clear enquiries, visible responsibilities and practical follow-up throughout the assignment.

06

Long-Term Partnership

We aim beyond one transaction, building trust through quality, transparency and dependable outcomes.
